RFAI Image #202206280300145773 (April 2022 Quarterly)

The Amended 2021 YE shows where the committee removed a contemplated transfer totaling \$33,468.92 that was not effected.

The initial intent failed to consider considerable expenses that were forthcoming and the transfer was reversed. We filed an amendment to reflect same.

With regards to the data being reported inaccurately on the Detailed Summary and Schedule B, the Committee is working with its third-party software vendor to resolve the issues and will file and amended report.
